

## TIP AND TELL INDICATOR NEW BRAND LAUNCH!

Tilt Monitor™ tip and tell indicator shows possible damage when packages tip in transit by indicating blue beads break through to top. Save time and money bringing transportation damage claims to a quick resolution Tilt Monitor™ tilt indicator. Check out the low cost monitoring system!

### Faster

Integrate warning labels for the package into the indicator itself. Simply place indicators.

### Stronger

A sturdy case and strong adhesiveness make sure an indicator is in place during a journey.

### Easier

Pliers-free. Activating indicator by fingertip pressure without great effort.

### More Convenient

QR code serial numbers for scanning, recording and tracking.
